

## White Ink Printing set Up Instructions

If printing in White Ink, please follow the instructions in the attached link for how your files MUST be set for white ink printing.

<https://www.cardsandpockets.com/white-ink-file-setup.aspx>

Please note our printer is very specific, if you do not set up every part exactly as it is in the setup page it will not print correctly. Please double check the following before sending over.

- The Spot Color is named White (spelled exactly)
- The Layer is named White (spelled exactly)
- The PDF Presets are correct and set Exactly as we have them.
